

Kyndryl Announces Global Strategic Alliance with Databricks to Drive Customers' Digital Transformation

June 4, 2025

Partnership will leverage Kyndryl AI services to support customer adoption of the Databricks Data Intelligence Platform

NEW YORK, June 4, 2025 /PRNewswire/ -- Kyndryl (NYSE: KD), a leading provider of mission-critical enterprise technology services, today announced a new global strategic partnership with Databricks, the Data and AI company, to power digital transformation for customers by enabling and delivering AI at scale and by becoming data-driven organizations.

By combining Kyndryl's data and artificial intelligence (AI) services with the Databricks Data Intelligence Platform, a unified platform for data, analytics and AI, the companies are partnering to further assist customers with modernizing their IT estate and achieving their business goals in a cost-effective manner.

"Partnering with Databricks furthers our ability to support customers and drive business growth by establishing the right digital foundation and providing complete application and data modernization services," said Giovanni Carraro, Kyndryl's Global Strategic Alliances Leader. "Together, we'll expand the reach of Kyndryl's services through the delivery of integrated solutions that enterprises need to enable AI at scale and reap the benefits of their digital transformation journeys."

"As enterprise demand for data intelligence grows, Kyndryl's end-to-end services, experience managing and modernizing customers' IT environments and strong relationships, make them key partners in driving customer adoption of Databricks," said Jason McIntyre, Vice President of Consulting and Solutions Integrators at Databricks. "We look forward to supporting our joint customers in modernizing their data and achieving their business goals."

Under the alliance, Kyndryl will make its comprehensive data, AI and modernization services available to support customers leveraging the Databricks Data Intelligence Platform, including:

- **Establishing and Modernizing Data Foundations:** Kyndryl will provide end-to-end data services to help customers adopt Databricks and modernize their data and data architectures, while also helping to ensure data quality, security and scalability.
- **Accelerating AI Adoption:** Kyndryl will guide customers in applying the Databricks platform to unlock their data's potential using advanced capabilities – such as machine learning, natural language processing and computer vision – to gain deeper insights and enable AI at scale.
- **Integrating SAP Data:** Kyndryl will support customers in combining their SAP and enterprise data through the SAP Business Data Cloud and SAP Databricks to unlock insights, deliver business value and increase productivity.
- **Delivering Analytical Insights:** Kyndryl will combine its deep mainframe expertise with Databricks to bridge the gap between legacy systems and cutting-edge analytics, ultimately delivering increased business insights and value to customers.
