

Kyndryl Expands Strategic Alliance with HPE to Accelerate Customer Adoption of AI Private Cloud Solutions

August 6, 2025

NEW YORK, Aug. 6, 2025 /PRNewswire/ -- Kyndryl (NYSE: KD), a leading provider of mission-critical enterprise technology services, today announced an expansion of its global strategic alliance with HPE to deliver services that enable and support customer adoption of [HPE Private Cloud AI](#), a turnkey enterprise AI factory solution co-developed with NVIDIA.

As part of the expanded collaboration, Kyndryl Consult will provide its AI private cloud services and accelerators to enable a seamless experience for customers by developing, implementing and scaling AI solutions that leverage HPE Private Cloud AI, part of the [NVIDIA AI Computing by HPE solutions](#) portfolio. Kyndryl will utilize HPE's observability, automation and unified control plane solutions to accelerate the deployment and management of customer AI workloads. From design to full operational deployment, Kyndryl accelerators will help ensure smooth integration and optimal utilization of HPE Private Cloud AI across private and on-prem environments.

"Our expanded alliance with HPE illustrates our shared commitment to driving innovation and accelerating customer implementation of private AI solutions," said Nicolas Sekkaki, Global Cloud Practice Leader, Kyndryl. "By bringing together HPE Private Cloud AI with NVIDIA AI Computing by HPE and Kyndryl AI consulting expertise, we can empower customers to unlock the full potential of their AI strategies in a scalable, security-rich manner."

"The launch of HPE Private Cloud AI with Kyndryl's AI services represents a pivotal step in enterprises adopting and developing AI solutions that can improve productivity and generate fast and sustainable ROI for their organizations," said Gilles Thiebaut, Senior Vice President for Global Hybrid Cloud Sales, HPE. "Together, we aim to redefine how businesses leverage generative AI capabilities to drive transformation and achieve meaningful outcomes across industries."

To support customer adoption and implementation of HPE Private Cloud AI, the signature offering in the NVIDIA AI Computing by HPE portfolio, Kyndryl offers cloud deployment options tailored to specific business use cases. Kyndryl Consult advises customers on deployment strategies that align with their business objectives, enabling smooth implementation and impactful AI business outcomes.

Kyndryl and HPE will support a variety of customer AI private cloud use cases across industries including:

- **Healthcare:** Using HPE Private Cloud AI, Kyndryl's AI services for AI workloads will support secure handling of sensitive patient data and leveraging AI capabilities to improve diagnostics, personalized treatments and operational efficiency by enabling application developers to quickly deploy generative AI technology into business applications.
- **Financial Services:** Kyndryl's AI services, combined with HPE Private Cloud AI, enable customers to deploy AI workloads that meet their data security requirements, while supporting risk management and enhanced end-user experience. Kyndryl AI and data services enable organizations to gain insights, detect money laundering fraud, mitigate financial risk and automate processes within security and compliance-rich environments.

This expanded collaboration builds on Kyndryl's successful AI private cloud initiatives worldwide, such as the AI private cloud established for [customers in France](#) to accelerate the development and deployment of enterprise AI solutions within a secure environment.
